Brain Soul Fusion

We remove unwanted lower-level spiritual energies, ancestral programming, emotional energies and other negative spirit energies such as difficult relationships, abortions and miscarriages, abuse and trauma. We teach you how to find and follow correct guidance and hopefully change the way you live.

In addition, we work on clearing and harmonizing the energies of the mind and connecting it to both the inner self and higher self so that brain function becomes a useful instrument for living your life in a positive manner.

We also practice a form of subtractive healing. This healing is ever expanding through experiences with individuals who have sought our help. Along with removal of negative energies and patterns, we are conduits for positive energies that you can feel and incorporate.

We make no specific claims, promises or guarantees.

We do not medically prevent, diagnose, treat or cure disease.

You are solely responsible for continuing with your own medical treatment and care.

The undersigned hereby acknowledges that he/she is solely responsible for his/her own wellness and emotional states and that he/she has read and understood the above and has freely and unconditionally agreed to receive and participate in spiritual work with Reverends, Nicholas Harper, Anya Castellano, Yukiko Amaya, Taylor Phinny and Rashmi Parmar.
